Engine and transmission coolers with 8 fins per inch spacing reduce buildup of debris. Hood rolls up for easy cleaning.

Individual gauges and indicators simplify operation, troubleshooting, and repair.

***GAME tractors are designed and manufactured from the ground up for the most demanding conditions the world has to offer. Industrial frames, belly pans, drivelines, powertrain components, and hitches are standard.***

Tilting platform and hood provide unmatched access to engine, cooler, and cab components. Both work via hand pump even when systems are down.

Hood profile provides excellent visibility.
