75MTX 4x4 TRACTOR 190 HP (142 KW) / 185 HP (138 KW)

Engine and transmission coolers with 8 fins per inch spacing reduce buildup of debris. Hood rolls up for easy cleaning.

Individual gauges and indicators simplify operation, troubleshooting, and repair.

GAME tractors are designed and manufactured from the ground up for the most demanding conditions the world has to offer. Industrial frames, belly pans, drivelines, powertrain components, and hitches are standard.

Tilting platform and hood provide unmatched access to engine, coolers, transmission, and under hood and cab components. Both work via hand pump even when systems are down.

Hood profile provides excellent visibility.

Built to withstand extreme applications, the frame accommodates multiple hitch configurations for high weight transfer, winches, and other equipment.
