4x4 ARTICULATED TRACTOR 220 HP (164 KW) / 225 HP (168 KW)

Engine and transmission coolers with 8 fins per inch spacing reduce buildup of debris. Hood rolls up for easy cleaning

Individual gauges and indicators simplify operation, troubleshooting, and repair

***GAME tractors are designed and manufactured from the ground up for the most demanding conditions the world has to offer. Industrial frames, belly pans, articulation, drivelines, powertrain components, and hitches are standard.***

Tilting platform and hood provide unmatched access to engine, coolers, transmission, and under hood and cab components. Both work via hand pump even when systems are broken

Extreme duty upper and lower articulation joint with radial spherical bearings, oversized hardened pins, and welded cylinders with bushings

Hood profile provides excellent visibility

Built to withstand extreme applications, the frame accommodates multiple hitch configurations for high weight transfer, winches, and other equipment
